

**cationic Polyelectrolyte - High Molecular Weight
Polyacrylamid - PAM**

**c1004 cationic Polyelectrolyte
Technical Specification**

Result of test	Description	Item
Polyacrylamide - Polyelectrolyte	Chemical Name	1
cationic	Cation action	2
20Million	Molecular weight	3
9003-05-8	CAS Number	4
≤ 50 minutes	Dissolving Time	5
≥ 0.6	Density (gr/cm3)	6
Fast & complete	Water soluble	7
White Granule	Appearance	8
Water and waste water treatment	Application	9
