

Anionic Polyelectrolyte - Medium Molecular Weight
(Polyacrylamid – PAM)

E 300 Anionic Polyelectrolyte
Technical Specification

Result of test	Description	Item
Polyacrylamide - Polyelectrolyte	Chemical Name	1
Anionic	Ionic action	2
18Million	Molecular weight	3
9003-05-8	CAS Number	4
Fast & complete	Water soluble	5
White Granule	Appearance	6
Water and waste water treatment	Application	7
